The Leading Man

Name: Jamie Foxx

Vital stats: 39, single, actor, singer, comedian

Known for: Snagging an Oscar for *Ray* and bringing the drama in *Dreamgirls*, and we hear this brother throws one hell of an after party.

What's next: *The Kingdom*, a political thriller hitting theaters next month.

Why he's the toast of Tinseltown: During the 14 years since he last puckered up as Wanda on *In Living Color*, Foxx has bum-rushed the movie and music spotlights. "You know you're out there too much when comedian Paul Mooney says, 'I'm so sick of Jamie Foxx. He's on billboards and milk cartons—he's even on my license!'" says Foxx, who's now vowing to infuse his Hollywood swagger with a dash of mystery. "I'm learning that when you have a good song or a hit movie, you can just lie back and let the art speak for itself."
